** The final portion of this update involves a MARKET RATE SURVEY. This is a survey that is conducted every two years to survey the "price" of child care in the local market. To do this, we need to collect information regarding a provider's rates and current enrollment. The market rate survey is used to determine equitable payment rates for subsidized child care. Provider participation is vitally important to the child care provider community. Setting fair subsidy payment rates depends on obtaining current rates from a large percentage of both center and family home providers from all regions of Illinois. Individual rate information we collect is not shared with parents.

Rates and Current Enrollment

Please complete the RATE and CAPACITY sections so that we can accurately represent our region's "price" of child care.

Schedules Accepted I am open: (check only one) Both Full & Part Time Full Time Only (more than 35 hours/week) Part Time Only (34 hours or less/week) School Year Only Summer Only
