What is this training about?

Did you know all children come with an instruction manual? Based on more than 50 years of research, this training will make it clear that your child is the instruction manual. In this training, you will learn how to read the 'manual'. We'll show you various ways you can observe each child's cues and effectively read the instructions your child is offering you. Once you better understand what you are seeing, you will be able to talk about what you are doing and not yet doing to give your child the security needed to have a stronger relationship with you. This sense of security will help your child succeed in school and gain a higher self-esteem.
